

ULTRASOUND

IMAGING | RUSH MEMORIAL HOSPITAL

RESULTS

The radiologist will read your exam and send the report to your provider within 24 hours.

QUESTIONS

Please contact the Imaging department at 765-932-7556 with any questions or if you need to re-schedule your exam.

THANK YOU

Thanks for choosing RMH for your imaging needs. We look forward to seeing you!

TESTICULAR

WHAT TO EXPECT

In a Testicular Ultrasound, a transducer (probe) will be placed onto your scrotum. A layer of warm gel will be applied directly onto the skin allowing sound waves to be transmitted from the transducer through the gel and into the body. If you are experiencing pain at the time of your examination, it may be uncomfortable due to the technologist applying a small amount of pressure with the transducer. If at any time during the examination you experience pain, please let the technologist know. Expect this exam to take approximately 30 minutes.

PATIENT PREP

BEFORE YOUR EXAM

Please wear loose comfortable clothing as you will be required to undress from the waist down.
